```

QUERIES

- 1) All products with price more than 5000.
- 2) Products in descending order of their price.
- 3) Find total quantity sold per product.
- 4) Find average product price.
- 5) Show customer names with order dates.
- 6) Find products costing more than the average price.
- 7) Find total amount spent by each customer.

ANSWERS

```
mysql> SELECT * FROM Products
      -> WHERE price > 5000;
+-----+-----+-----+-----+
| product_id | product_name | category | price |
+-----+-----+-----+-----+
|          101 | Laptop       | Electronics | 60000.00 |
|          105 | Table       | Furniture  | 8000.00 |
+-----+-----+-----+-----+
2 rows in set (0.408 sec)
```

```
mysql> SELECT *
      -> FROM Products
      -> ORDER BY price DESC;
+-----+-----+-----+-----+
| product_id | product_name | category | price |
